Columbus, July 25.—[Special]—A train load of soldiers left here this morning for Cleveland.

Charge Made By Strikers.

Cleveland, O., July 25.—[Special]—There was no outbreak of any nature reported up to 2 o'clock.

The dynamiting of street cars is being laid at the doors of the company by the strikers, the alleged motive being to induce the calling out of the state troops.

Broadway cars were being stoned throughout the day on Orange street. As car No. 430 approached Perry street about noon a shower of missiles was directed at it. Standing on the rear platform were Policeman Hileman and Conductor Ralph P. Hawley. The latter drew his revolver and shook it at the mob, which was rapidly increasing in size. Suddenly Hawley jumped from the car and made for Cornwell, who was riding a horse on Perry street a few feet from the scene of rioting, and fired at him. Cornwell fell from the horse with a bullet wound over the right eye.

As the conductor reached his car he was placed under arrest and removed to the central police station. The charge of murder was placed against him. The wounded man was removed to the hospital, where he died shortly afterward. The mob was then driven from the street by the police.

Mayor Farley in the afternoon telegraphed to Adj. Gen. Axline at Columbus to hold one regiment in readiness to come to Cleveland. Other local troops were out early in the morning. Mayor Farley and Director of Police Barrett decided Sunday night that more troops were needed, and battery A, the battalion of engineers, and the L'Overture rifles of the Ohio national guard were ordered to report for duty at their respective armories. It is said the state will be called upon for more assistance.

The police say they have the horse and buggy which was in the possession of the two men who blew up the Euclid avenue car Sunday night.

Rioting broke out afresh last night, and a second attempt to wreck a car was made. The rear platform was torn off and the flooring wrenched from its fastenings. The crew was not injured, but emerged from the ruin with pistols drawn and began firing. Troop A, hurrying on horseback to the scene, was bombarded with giant firecrackers. One of the troopers was knocked over and in his fall carried with him two horses and their riders. Springfield, Ohio, July 25.—Gov. Bushnell has ordered, through Adj. Gen. Axline, several regiments to be ready to answer a call for assistance from Cleveland. The Fourth and Eighth regiments will be ordered out first. The officers of both have been notified to have their men in shape to go to Cleveland in a hurry.

Washington, July 25.—Gen. Willson, chief of engineers, has received reports from the engineer officers upon the fortification work completed during the past fiscal year. The coast defense of the United States is now in such a state as to make the country well protected.

## COUNTY TEACHERS WILL GATHER HERE

NEXT MONTH.

To Be Held at the High School Build-  
ing—Mary C. Holt, of This City, to  
Be One of the Conductors—Dr. J.  
W. Stearns, of the University, to  
Lecture.

The annual teachers' normal institute for Rock county will convene in the high school building in this city Monday, August 7, at 10 a. m. and will continue in session through the 24th. There will be a six day session through the second week. On Friday and Saturday, August 25 and 26 an examination will be held for certificates of all the county grades. Teachers who attend the entire fifteen days will be allowed to refil their examination papers on all branches in which their standing is above 75. County Superintendent Throne desires to impress upon all teachers a sense of the necessity of good honest hard work in the institute.

Attend Prepared to Work.

Mr. Throne in addressing the teachers of the county in a circular says: "We desire your presence on time the first morning. We expect you to be present every day on the opening of the work. Do not come to visit, come prepared to work. Bring with you a copy of the manual of the course of study and text books on arithmetic, geography, history, constitution and physiology. The basis for reading will be found in the circular which will be placed in your hands at the opening of the institute. Bring other reference books which you think may be of assistance."

"It is intended to make the examination depend largely upon the institute work. Your school boards have been requested not to open schools until after the close of the institute. Come Monday morning prepared for three weeks good solid work. Remember we are teachers in a teachers' training school, which has been brought here for our especial benefit. No tuition will be charged."

Strong Corps of Conductors

While this institute is primarily for work on third grade branches, arrangements will be made by which, if a sufficient number of teachers desire it, work may be done on second grade branches. The institute will be graded. The classes will be small and excellent opportunities for work will be given.

The following strong corps of conductors has been secured, who will spare no pains to make the entire time very profitable to all concerned: Geo. C. Shotts, Whitewater; A. P. Hollis, Brodhead; Mary C. Holt, Janesville, and Elma La Trace, Green Bay.

Desirable boarding places can be found at reasonable rates.

## TIMES TALKS ARBITRATION.

Significant Comment on the American-  
Canadian Dispute Over Alaska.

London, July 25.—The Times, commenting on the American-Canadian dispute over the Alaskan boundary question, pays a tribute to Mr. Fairbanks, the head of the American commission, for his extremely calm and fair-minded utterances. The paper says it sees no reason for gloom or recrimination on either side. It thinks it is decidedly preferable to settle the differences by direct negotiations, but says that in the last resort Great Britain is willing to submit to arbitration, as Canada is clearly prepared to do. It adds that it is altogether incredible that the United States would be unwilling to arbitrate if other means proved ineffectual, and cites the American attitude at The Hague and in the Venezuelan matter in support of its belief that the United States would not refuse arbitration.

Springfield, Ill., July 25.—Atty. Gen. ## COMMAND TO BE DIVIDED.

Plans of the Administration as to  
Government of Philippines.

Washington, July 25.—It can be stated authoritatively that the administration is entirely satisfied with Gen. Otis and his conduct of the Philippine campaign. He will not be superseded or recalled. He will remain in Manila as governor-general.

Otis has communicated plans for a campaign after the rainy season which have met the approval of the president. He has been authorized to carry forward these plans and he will do so. The administration does not intend to embarrass Gen. Otis and his officers by making public details of the new plan of campaign, for the benefit of Aguinaldo and his insurgent followers.

It may be said, however, that the plan provides for a division of responsibilities as well as of duty. It is a measure applying to the Philippines the plan of administration now followed in Cuba. In Cuba Gen. Brooke is the governor-general of the whole island, but there are four military departments commanded by general officers of the United States army, and each is responsible for the administration of his department.

In the Philippines Gen. Otis will remain the governor-general of the islands, and the supreme authority, but the general officers placed in command of the military departments will have authority within the limits of their territory and opportunity to show their skill as military strategists, and their tact in governing the natives, as well as their courage for fighting.

nostic is Ill.

INCINERATION OF BODY TEM-  
PORARILY ABANDONED.

The Grief Stricken Woman Succumbs to the Ceaseless Vigil Kept By Her Dead Husband's Side—Refuses For the Present to Give Up the Dead—Should She and Her Daughters Become More Reconciled to Their Loss, the Cremation May Take Place Thursday.

New York, July 25.—[Special]—The wife of the late Col. Robert G. Ingersoll, who was ill this morning, has succumbed to the ceaseless vigil she has kept by her dead husband's side.

The incineration of the body tomorrow has temporarily been abandoned out of deference to the wishes of the widow and daughters, who refuse for the present to give up their dead.

All the pleadings with the grief stricken women have been of no avail. Should Mrs. Ingersoll and her daughters become more reconciled to their loss, the cremation may take place on Thursday.

It is said at Ingersoll's home this morning that the three women are on the verge of a collapse, and they refuse to leave the shrouded chamber for even a brief period.

Their grief is most pitiable.

WELL KNOWN RESIDENT AND  
HOTEL MAN.

Passed Away Sunday Morning After a  
Long Illness of a Rheumatic Nature  
Several Pleasant Socials Partici-  
pated in By Many—News of a Per-  
sonal Nature.

Clinton, July 25.—Frank Salisbury, a well known resident of Clinton, and a veteran hotel man, died at his home in this village, on Sunday morning, July 23, 1899, after a long illness of a rheumatic nature. He had been in poor health for a number of years and had not been out of the house since last November. He gradually failed at the last until the end came quietly at 6 o'clock a. m. Sunday. Deceased was born near Syracuse, N. Y., on February 15, 1825, and came to Wisconsin in an early day. He conducted the Beaumont House at Green Bay up to 1869, when he came to Clinton and has resided here ever since. He was proprietor of the Commercial House in this place for many years until he retired from business on account of his health. Mr. Salisbury was twice married, his first wife dying young and leaving one son, George M. Salisbury, who lives in Chicago. His second wife, who died a few years ago, was Mary Camp, to whom he was united in marriage about twenty-five years ago. Two children were born to them, Frank Salisbury and Miss May Salisbury, both of whom are at home. Mr. Salisbury was at one time a prominent Mason and was widely known in that order. The funeral services were held at the home on Tuesday of this week and the interment was made in the Clinton cemetery. The meat market firm of A. A. Watts & Co. closed out their business the past week. Mr. Watts will enter the service of Watts & Lake and Mr. Hardee will retire from business at present. This leaves but two shops in town. "Illuminated Asia", designed and produced by Prof. Stanley, was exhibited at Ames' hall, Thursday evening, to a rather slim audience. Those who saw it say it deserved a better house. The entertainment consisted of a typical Asiatic structure ingeniously constructed of colored paper, and lighted with electricity, which gave a novel and fine effect. The dancing boys, arrayed in the different costumes of the orient, did their parts nicely. The Clinton Cornet band furnished music for the occasion. The M. E. church social, held at the country residence of R. M. Benson, Thursday afternoon, was largely attended, and proved a pleasant affair. About fifteen dollars was realized from the supper. The ice cream social given by the United Workers, at the home of Dr. and Mrs. C. W. Colver, last Friday evening, was a success financially, and greatly enjoyed by all present. About nine gallons of cream, with cake, was served to the company at tables on the lawn, which was lighted for the occasion with festoon-arranged colored electric lights and strings of Chinese lanterns. Before the refreshments were brought out the following pleasing program was rendered.

## BELOIT HIGH DIVER INJURED

George Dunbar Strikes His Head Against  
Rock Bottom.

George Dunbar, cook of former Co. D of Darlington, First regiment, who went to Beloit recently to work, while diving in Rock river yesterday struck his head against the rock bottom, and dislocated his vertebrae and will probably die. Dunbar is a jockey of some note, and has ridden many good races. He gained considerable fame at Jacksonville from his high dives at the natatorium. He would have drowned but for the timely aid of a friend.

Just to show how neat a dive he could make this young man took a plunge from the limb of a tree six feet from the river's surface into three feet of water and struck with his head against a rock. He floated up unconscious and Mr. Peterson, who had been watching the dive, pulled him out. His head was bleeding profusely and Peterson thought that his skull had been broken. Leaving the man in his wife's care, Peterson took his wagon, in which he had driven there, and went to town after a physician and the police.

He met Officer Scheibel as the latter was going to the 10:10 train. They went and got the stretcher and Dr. Bennett and returned at once to Boney's Island. Dunbar was conscious when they arrived there and groaning with pain, but his whole body was paralyzed and he could not move a muscle.

The young man was removed to the wagon and at every movement of the stretcher he would groan with pain and when an unavoidable jog was given him he would cry out in agony. He was taken at once to the home of Mr. Peterson on Wadsworth avenue.

## PLANS OF THE PRESIDENT.

Will Spend All of the Month of August on Lake Champlain.

Washington, July 25.—President McKinley contemplates spending all of August on Lake Champlain. This will cause a postponement of the proposed trip to St. Paul and Minneapolis next month. It was explained that it did not follow necessarily that that trip would be abandoned, but it is thought in Washington it is likely to be merged into the trip to Chicago and made an extension of that journey instead of a separate visit to the west. The president still holds himself bound to visit Chicago Oct. 9.

Evansville, Ind., invited him to go to that city to attend the reunion of the blue and gray, to be held Oct. 10-14. The president said if his engagements permitted he would try to include Evansville in his itinerary.

Mr. Root remained at the white house from 10 until 12:15 o'clock, when he returned to the Arlington hotel. Today Mr. Root will again see the president.

It has been agreed that Mr. Root will formally take charge of the war portfolio on Aug. 1. Mr. Root has nothing to say as to his policy, declining to discuss the subject prior to his formal introduction into office. He is known to be a man of ideas and determination, and will undoubtedly inaugurate a vigorous and thoroughly businesslike administration of the war department.

The object of the conference is to secure uniformity.

Brings larger profits for to-day.  
The soap, when used, offends his trade,  
Which deals, henceforth, "across the way"—  
Both purchaser and seller lose;  
But Ivory Soap makes steadfast friends;  
'Tis best to sell, and best to use,  
And brings best profits in the end.

A WORD OF WARNING.—There are many white soaps, each represented to be "just as good as the Ivory," they ARE NOT, but like all counterfeits, lack the peculiar and remarkable qualities of the genuine. Ask for "Ivory" Soap and insist upon getting it.

## POSTING THE FARMERS.

The Farm Implement News—a northern western dealer sends to a local paper that circulates among the farmers in his vicinity a communication entitled "A Few Facts About Binder Twine," dealing with the catalogue house prices and the quality of twine these houses handle. His remarks may serve as a pointer to dealers in other parts of the country and are, therefore, given as clipped from the paper:

"Owing to the rather high price of first class binding twine we feel that it will be justice to ourselves and to our customers to give a few facts regarding the most important article now used by farmers. It is generally supposed that any 'pure manila' twine, if it runs even and not too large, is just as good as any other pure manila. This, however, is a great mistake! The manila fiber, before it is ever spun into binding twine, is assorted and graded just as wheat, oats or hay are graded, and is known as No. 1, No. 2, No. 3, rejected and condemned. The condemned being considered worthless is used for bedding or is burned. But remember all these grades are strictly pure manila and can honestly be sold as such. And this is why some so-called catalogue houses that sell for spot cash only, can, and do advertise 'pure manila' twine at from one to three cents lower than the local dealers sell a first class twine. One who knows the business can tell the grades just as farmers can tell at a glance the difference between No. 1 and lower grades of wheat. But those who are not posted cannot tell until their binder misses bundles, and then they usually blame the machine. The papers reported that during the month of March, 1899, 150,000 bales of condemned manila fiber were shipped from the Philippine islands to America to be spun into binding twine and advertised and sold by catalogue houses, mostly from Chicago. With these facts before us we are not surprised to see 'pure manila' offered to the farmers for a cent or two below the wholesale price of No. 1 twine. It is a fact sometimes forgotten that a dealer can do business cheaper, and can afford to sell on a closer margin than any firm possibly can do in a city like Chicago where rents are ten times higher than in country towns. The intensely sharp competition between the several dealers in this and the surrounding towns will keep the price of binding twine and all other articles fully as low and in most cases much lower than the same quality can be bought away from home. Besides, the home dealer will cheerfully make right anything that does not prove to be as represented."

Racine is without water or fire protection, because of a broken main that disabled the water works system. At the time of the break in the main the water company officials were testing the pipes preparatory to making the annual test called for by the city council to take place on July 28. These tests had been going on for a week, and last night a much stronger pressure was attempted, possibly 125 to 135 pounds pressure, and the breaking resulted.

The Bath House, of Chicago, is doing New York, and changing the air of the eastern metropolis to a rose colored sun-kissed mist. He has more fancy clothes than John Lawrence Sullivan; and more money than Willie Astor. In other words, The Bath House is, "making them New York guys look cheap—cheaper than five cents worth of dog meat." Great is The Bath House.

An Oregon woman recently won a foot race with a bear by tearing off her skirt and throwing it over bruin's head. By the time the bear freed himself of the skirt, the woman was so far ahead that he couldn't catch her. This should settle the question of long versus short

skirts for camping suits. The longer the skirt the more the bear is handicapped in the race.

The Cleveland strikers who argue with dynamite and blow up loaded street cars regardless of human life should be severely dealt with. Personal liberty is one thing but lawlessness and murder is quite another.

Ambitious spirit-mediums all over the country are now claiming to represent the spirit of Robert G. Ingersoll. It is a cheap way to earn a dollar or two, and no one is harmed, but the indications are that Col. Ingersoll had more spirits than a cat has lives.

The Akron, Ohio, police will cart offenders to jail in an automobile patrol. This fact is given merely because it suggests a new name for the automobile—"jagwagon."

The "round robin" failed to hatch.

Embellished milk, too, must go.

## CAUGHT IN CUPID'S MESHES.

**Sullivan-Main**  
In the chapel of Trinity church yesterday afternoon at 4 o'clock, Rev. F. L. Marjory, rector, performed the ceremony that united as husband and wife William Sullivan and Miss Irene Main. The wedding was a quiet affair. The bride and groom were attended by Mr. and Mrs. Otto E. Smith, as bridesmaid and groomsmen. After the ceremony a tempting wedding repast was served at the home of the bride's sister, Mrs. Richard D. Hepp, No. 3 Linden avenue. The bride has resided in Janesville ever since childhood. She is the youngest daughter of Mrs. Betsy M. Main, of No. 3 Linden avenue. The groom resides in Milwaukee and is traveling representative for the McCormick Reaper Company.

The happy couple left last night for Oshkosh to enjoy their honeymoon. They have the best wishes of many local friends for a happy and prosperous journey through life.

## Battle with a huge shark.

A whip-tailed shark became entangled in a fishing net off the Delaware coast the other day. Captain Green of Green Brothers' Sturgeon Fishing fleet while watching his men at work noticed a great commotion in the water and some of his fishermen battling for life. He bore down to the spot and he and his crew assisted in killing the shark, but not until five men had been wounded by the monster. The shark measured 26 feet from tip to tip.

## Express Trolley Cars.

The Pittsburgh trolley lines run express cars. There are large sliding doors in the sides through which express packages are received and delivered at any point on the line. Automobile delivery wagons wait at various points and scurry about from house to house immediately upon the arrival of the express cars, the work of transshipment being rushed through without delaying regular passenger traffic.

## Cushionet Turns

Are comfort giving, easy walking and longest wearing Shoes for women.

## In Construction.

"Fitting up" the sole, manner of lasting, sewing and making, Cushionet Turns are entirely unlike any other Shoes, and we have secured exclusive sale for Janesville.

## Results are Showing

That Cushionet Turns do not rip and that they will also outwear any other Shoes for walking on hard pavements.

## The Reasons

For their not ripping are in the improved methods (patented) of channeling the sole and the way of sewing and protection of the stitch.

## They Wear Longer

Because the very heavy soles of finest leather will not wear through quickly to the channel as in ordinary turn Shoes, and, being flexible, they do not grind out as well Shoes are liable to do.

## Cushionet Turns

Are easy Shoes for walking purposes. The elastic felt cushion which is stitched to a heavy canvas and is then covered with a kid sock lining forms a perfect treading surface and keeps the foot up and away from the pavement or hard walks. Felt, being a non-conductor of heat or cold, Cushionet Turns are constructed on hygienic principles. While the felt does not come in direct contact with the feet in these Shoes, they are cooler in summer and warmer in winter, because the heat or cold of the pavements does not penetrate this cushion.

We have all sizes and widths. Don't fail to see them.

## C. A. SANBORN &amp; CO.

## TWO DAMAGE CLAIMS AGAINST THE CITY

L. M. THOMAS AND JOHN B. SULLIVAN MAKE WANTS KNOWN

Choate-Hollister Furniture Co. Ask For Fire Protection—Saloon License Granted to William Carroll—George H. Erredge Elected Constable of the First Ward.

A regular meeting of the common council was held at the council chamber last evening. Mayor Richardson and all of the aldermen were present with the exception of Aldermen Carpenter, Fifield and Gilkey.

The minutes of the last regular and special meetings were read and approved.

A petition was read by ex-Conductor L. M. Thomas, by his attorneys, Winans & Russell, in which he states that on or about June 1, 1898, while Mrs. Thomas was driving on South Academy street, at the corner of Center street, the horse was permanently damaged and injured by reason of stepping through a wooden culvert or sewer, by having the tendons of the left forward leg strained and both knees badly cut; that the horse was a valuable family horse and worth \$150; that by reason of the defective street and the injury, he has been damaged to at least \$100, and asks the council to reimburse him.

The matter was referred to the judiciary committee who was granted further time to report.

A notice of injury from John B. Sullivan by his attorney, Ryan & Mahoney, was read, in which he states that about 8:30 a. m., July 13, 1899, he suffered great injury to his person while driving a team of horses attached to a wagon across the southerly side of Pleasant street, at its point of intersection with Adams street. The injury was caused, he alleges, by reason of defect and want of repair of said highway by reason of which he was thrown violently and seriously injured.

The matter was referred to the judiciary committee, who were granted further time to report.

A communication from John Thoroughgood, president of the Choate-Hollister Furniture Co., was read by the clerk, asking the city to give them such fire protection as will give more assurance for safety. The plant has already a powerful steam pump and is fairly well equipped, but in case of fire the city's apparatus, they claim, would be of little use owing to the distance and that they could not under present arrangements notify the fire department when fire should occur without a long run to the box. The council is requested to move the fire alarm box nearer the factory and drive a system of points that could be used more readily by the department and be of more direct service in case of fire.

The matter was referred to the fire and water committee who were granted further time to report.

The appointment of Fred Little as special police without pay for three months from July 24th, was announced by the mayor and on motion was confirmed.

The following petition signed by thirty-two property owners was referred to the highway committee and later to the aldermen of the ward:

"The undersigned, residents of the said city of Janesville and residing on Benton avenue and Prairie avenue in said city, do respectfully petition your honorable body to cause sidewalks to be built on both sides of Benton avenue, from Milton avenue to Prairie avenue and on both sides of Prairie avenue from Benton avenue to Walker street, or in case the council do not see fit to grant this petition, we hereby further petition your honorable body to rescind the order adopted at a meeting held July 3d, 1899, whereby one or two parties were unjustly singled out to build sidewalks on Benton avenue where least needed merely to cater to the interests of one man. Let all, the rich as well as the poor, be made to build or let no one be ordered to do so."

The favorable report of Alderman Palmer, of the finance committee, on a batch of bills against the several funds was adopted.

Alderman Rice introduced an order which was adopted directing the city clerk to publish in the official city paper a notice that the final report of the street assessment committee on improving West Milwaukee street from the west end of the bridge to the east side of High street is on file in his office and that the council will at an adjourned meeting to be held August 2, consider the report and hear all objections which may be made thereto and determine what portion of the cost of the improvement, if any, shall be paid by the city at large.

Alderman Palmer stated that the large fan for the council chamber could not be procured this year, as the company could not fill the order and that Captain Norcross had put in two smaller ones for inspection.

The action recently taken in refusing a saloon license to William Carroll was reconsidered and on motion a license was granted. His bond was reported in good form and accepted.

Owing to a vacancy in the office of constable of the First ward caused by the death of Jacob Heller, it was moved and carried that the city clerk be instructed to cast the ballot for George H. Erredge to fill the vacancy.

Ald. Kothman introduced a resolution, which was adopted, accepting a fifteen foot alley in block 14, village of Rockport addition, and that it be adapted as a public alley; that the street commissioner be directed to open it and remove all obstructions.

An order introduced by Ald. Hutchinson to repair gutter on South Main street was adopted.

On the suggestion of Ald. McLean

## CULBERT IS TRULY BEATING HIS WAY

TRAVELING FROM ROCHESTER, N. Y., TO SAN FRANCISCO.

Blew Into Janesville With the Showers Yesterday and Tells Conflicting Stories as to His Trip—Still Different Stories at Rockford and Chicago—Read and Judge.

A big husky fellow about thirty years of age, attired in a pair of linen cycle trousers, red "perspires," black stockings, tan shoes and light slouch hat, blew into the city with the showers yesterday. He bore on a yellow strip of cloth about his wrist the legend, "Omaha—1,000 miles—35 days." His sweater was covered with baggage checks, buttons and different colored ribbons and his hat bore several autographs written on the rim. His black stockings were circled with yellow ribbons, also bearing names. Taken altogether he had much the appearance of an animated Christmas tree. He gave his name as Fred Culbert and claimed to be beating his way from Rochester, N. Y., to San Francisco on a wager of \$1,000, the trip to be made within thirty-five days. He said he was sent out by Richard K. Fox of the Police Gazette and claimed to be the man, who, in 1894 started from Boston in a paper suit to go around the world, without a cent to start with. He said he got back in 1896 and won a \$5,000 wager. Possibly. He told a party at the Hotel Myers last night that he was going from here to La Crosse and then back to Omaha, while to another he stated that he left for Omaha via Madison, Prairie du Chien, etc. In connection, the following items taken from our exchanges may be found of interest:

Read Them and Judge.

Nunda, (Ill.) Herald: Dressed in outlandish trappings, and with the red, white and blue of the national colors debased to use as strings to tie on his shabby clothes, a husky fellow who said his name was Fred Culbert, spent a few hours in town Saturday. He claimed to be walking on a wager from Sault Ste. Marie, Mich., to St. Louis, a distance of 1,000 miles. He must complete the trip in thirty-five days, to win \$1,000. He started, he claims, with a 35-cent calico suit, and must neither work nor beg, and must follow the railroad tracks on his journey. He lives on the contributions of sports and others, and is stamped by postmasters, telegraph operators, etc., to show that he has covered the specified number of miles.

Chicago Journal: Fred Culbert, of Pheasant, Wis., who started to walk from Waukegan to Omaha, a distance of 1,000 miles in thirty-five days, for a purse of \$500 offered by the Rochester club of Rochester, N. Y., arrived at North Evanston last evening in good condition. He will start on his trip again this morning over the Galena division of the Northwestern railroad tracks, walking all the way, his next objective point being Aurora.

## 'NEATH THE SHADOW OF DEATH

Loretta Marie Schmidley

Miss Loretta Marie Schmidley passed away last evening at 5 o'clock at the home of her parents, Mr. and Mrs. Edward J. Schmidley, 110 Terrace street, from rheumatism of the heart. She was taken ill about four weeks ago, but had been up most of the time and had only been confined to her bed during the past few days. She was an unusually bright, promising child and the bereaved parents have the sympathy of a host of friends. Besides the parents the little one leaves one sister, Marie.

Miss Loretta was a native of Janesville, born January 30th, 1892, a few months over seven years ago. She was a sweet and affectionate child and was fairly worshiped by her parents, who are nearly heart-broken.

The funeral will be held from St. Patrick's church Wednesday at 2:30 p. m., and the interment will be in Mount Ovet cemetery.

Adene Maud Mary Maryon

Little Adene Maud Mary Maryon, only child of Rev. and Mrs. F. L. Maryon, closed her eyes in blissful sleep at 1 o'clock this morning to awake no more in the material world. Frail since her birth she continued to grow weaker until the end. On July 2d, when but eight days old, she was baptised at Trinity church by Rev. Father Gillman, of Racine, Wis. The parents have the sympathy of their many friends in the loss of their first born.

Mrs. A. N. Goldberg

We learn of the death of Mrs. A. N. Goldberg, residing near Aberdeen, N. D., who was the oldest daughter of Mr. and Mrs. N. K. Hegard, of Orfordville, Wis. Her death occurred Sunday, July 23. ## TOLL LINE EXTENSION WORK

Poles Already Set to Footville, Brooklyn, Magnolia and Cooksville.

The Rock County Telephone company are progressing rapidly with the work on the new toll line extensions, the contractors, Messrs. Jones and Winter, having already set the poles to Footville, Brooklyn, Magnolia and Cooksville. The poles have also been set for the line to Shopshire, and a gang of men engaged on the Beloit line have completed about one-half of the work.

They expect to have the wires strung to the above places in about two weeks. The wire to be used is what is known as a "No. 10," and is much larger than the size in general use. Within the next sixty days there will be some one hundred and fifty miles of wire put up in the immediate vicinity, and the people of Janesville who have phones will be enabled to communicate with their friends in the surrounding towns without having to pay the usual messenger charges, the line making many more people available to the local exchange.

When the work is entirely completed, Janesville will be connected with all of the independent telephone companies of the state.

## TEST LOCAL STONE FOR STREET WORK

LEASED QUARRY SAID TO BE UNUSUALLY GOOD.

Experts Pronounce the Rock of Excellent Quality, and Say the Work Can Be Very Cheaply Done—Outside Material Costs Four Times as Much.

We will soon be in a position to give the native building stone a fair test in the building of streets," said Mayor Richardson in response to a Gazette man's question.

"But is the local stone of any account?" he was asked. "The experts who have inspected the Barron quarry which has been leased by the city say the stone is all right, and that the quarry can be worked cheaper than any quarry they ever saw. The stone is much better than the material that has been used heretofore, and is the best that can be gotten in this vicinity."

"Why do you not buy the Barakoo granite, or some other hard material?"

"Well, the stone you mention would cost four times as much as the local stone, because of the high freight charges. I have looked into the matter, and decided that to buy outside material would be altogether too expensive, and the expenses should be kept down. When our new plant is in operation, we will be able to give the local material a fair test. If it is not found suitable, and the people want to pay the bills, we can use the outside stone. But if our own material will do, it will be much cheaper and much handier."

"We will be able to save considerable money by putting in the crushing plant, because we will work the granary with modern machinery and methods, instead of in the old out-of-date manner. The contract calls for the completion of the work on the crushing plant within forty days, and we hope to build a sample street this fall."

"What will be done with the old crusher?"

"We calculate to sell it. The Town of Harmony board talk of purchasing it, and if it is not sold to them, some one else will buy it, as it is a good machine for such use."

## An Afternoon at Mr. Peale's.

By OLINTON ROSS.

[Copyright, 1899, by Olinton Ross.]

Mr. Peale bent lovingly over his favorite subject, putting a touch here, there, and standing back to note the effect. In the shadow of the rear of the room Don Juan Miralles, the uncredited representative of his Spanish majesty, nodded approval, yet made the very remark of Washington Irving, a generation after, "No artist catches his best look."

"No, M. Miralles," said Mr. Peale. "That maddens me."

"Still, I like it," said the don, wagging his head wisely. "I must have my copy in a hurry."

"It's keeping pace with the original, and, indeed, is almost an original itself. There it is against the wall, behind the screen. They are nearly alike, are they not?"

"Yes," said the don critically. "I can hardly tell the difference, I declare."

"Wait until they may be finished," Mr. Peale interrupted irritably.

"But they appear almost so now."

"Oh, yes, to you; but it's the last touch that tells. I never know. Perhaps I may not be able to put on that last touch which leaves a portrait living."

Don Miralles smiled at this exhibition of the artistic temper and asked how many times the artist had done that subject.

"Let me see—first in 1873, when the three miniatures of the Custis children were done in addition, and then that bust study was made that is in the cellar. Since, the general has given sittings in 1876 and again in 1878. But he changes," the artist went on.

"The spirit acts on the face," said the other sympathetically.

"Yes," Mr. Peale said, "and perhaps you have to see a bit into a man's heart to paint him properly, and the heart of a man of action never beats two years alike."

"Don't forget that in my copy, monsieur. I suppose I can't cajole the council to let me have this. But I don't know that I wish it. Mine will be almost as good."

"You may believe I shall do what I may," said the painter, remembering how generous a patron was this nobleman.

The visitor was sure that Mr. Peale certainly had and would, in view of the fact that his Spanish majesty wished to look on the face of that wonderful general of whom the world was now talking.

Mr. Peale's black servant, Burton, brought in wine and cakes, when Don Miralles' enthusiasm increased. Unfortunately he went on in the vein of explanation he must act in America through the French minister, but that would not be always. When he returned to Madrid, he would make them understand that the king of Spain should recognize the United States.

Now he rose and bade Mr. Peale a courteous good day. He had a round of visits to make.

Alone, the painter touched the canon on which his subject's hand rested. Yes, more was to be done on the face, but his visitor had frightened the mood. Perhaps that last sitting would give the impression he lacked.

When Burton announced Miss Ronald, he sighed and threw his brush down petulantly. For a moment he could see every line of Eleanor Ronald's charming figure. Her portrait had been a labor of such devotion that the artist may give to a subject appealing to his temper.

"Well, of course, show her here," he said at last.

And, rising, he pulled his coat into some shape and ran his fingers through his hair.

"Oh, Mr. Peale!" said a laughing voice.

Yet in some way the face did not laugh. He saw how serious this delightful person was.

"Do be seated," he began clumsily. But she had walked across to the Washington and was gazing at it with questioning eyes.

"What is he like?" she asked.

"Oh, I don't know! Everybody has an opinion."

"And there is the portrait," said she, smiling.

"Oh, I didn't say that!" said he.

"I know you didn't, you delightfully modest man, but I did."

She turned her gloves with her fingers as she faced him.

"You told me he would be here this afternoon," she said.

"Ah, I did!"

"I—I want to see him."

"I beg your pardon, but I am afraid he would not like it," he said bluntly. "You must have seen him often."

"Yes—yes—that isn't it. I wish to see him when he is not thinking of duty. He's in town but for two days. I might go to his quarters and find he was too busy just to meet a girl!"

"The most charming young lady in Philadelphia," said the gallant Mr. Peale, trying to apologize for his bluntness.

"Oh, you needn't say that!" she said wearily. "I am the most miserable."

Her eyes filled with tears. Poor Mr. Peale gazed.

"I shall be glad, but I am fearful he will say I ought not—charming as you always are."

She looked at him fixedly. And he in some way could not resist what he saw in the face. Ah, had he not studied it every line? Perhaps since her painter, he was even weaker than the others. He thought that today she looked old. As a matter of fact, he knew she was 26. No one of the admired of that town ever had more admirers. She was said to be heartless, as men and their women friends think this of women who they admire much, and who may be

rather disdainful. Sutors by the score had charged and retreated, for more than her personal attractiveness was that of her being a great heiress of Pennsylvania. But the personal quantity now was blurring Mr. Peale's judgment.

"I want just this favor of you," she went on—"to be here when he comes in. He will not think that strange."

"I don't know that he will."

At the moment Burton announced, "General Washington."

The painter ran the situation over hurriedly. But another glance at his visitor left him conquered. Yet he expostulated this far:

"You know he comes here as a favor to me. I only have this day. He leaves Philadelphia tomorrow."

"And this is a favor to me," she said, turning the fire of her blue eyes on him. Her reddish hair at one side had escaped from its fastenings. The low broad forehead, the thin flushed face, the small mouth, the graceful figure in a fitting gown, left him no alternative.

"Well? Show his excellency—here at once," he bade to Burton and turned to his palette, not looking again at her, until presently were heard footfalls and the beat of his excellency's spur.

"Well, Peale, I found time. You ought to thank me."

"That I do, indeed, your excellency, you may believe."

"Sitting for a portrait has become almost a second nature. I sit, and then tomorrow I shall be back to duty, endless duty."

"And perplexity," said the painter.

At the moment the general saw the young lady who was in the shadow. He stepped back embarrassed and rather angry. What did Peale mean by having somebody around? Then he remembered his manners and bowed courteously.

"Ah," he said, "Miss Ronald, Stuyvesant Ronald's daughter."

"You remember me, your excellency," said the young lady, giving her hand. "It is good of you."

"Ah, how could I forget you?" said he.

"It is against Mr. Peale's request that I am here, sir," she said, bending her head.

"I don't blame Peale. I am very glad, I assure you."

"I wanted to see you so much," she said, "and there seemed to be no other opportunity."

"Ah, yes," said he, suspecting.

"Is it true that—Captain Jermyn has been condemned?"—her voice caught—"to die?"

He looked at her quickly.

"You are a friend of Sir Henry's captain?"

"He is—my betrothed," she said.

"Ah, I didn't know that," said he.

"I didn't know it."

"It is not known," said she hoarsely.

"You understand now why I wished to see you?"

"Yes, yes," said he, losing his self control. "I know, and I am sorry—so sorry, Miss Ronald, believe me. He is a charming young gentleman."

"Yes," said she.

"But the evidence is against him, Miss Ronald. What was he doing disguised in our lines with the plans of the fort in his pocket? The court has decided, and—I can't give my influence against it. How can I? Is he better than Captain Hale?"

"Yes, he is," said she.

"Oh, I know, Miss Ronald. It is horribly hard for you, and I am sorry. But I must say what I said at the opening of the war when my own good friend, Colonel Webb, asked me to have him immediately exchanged. It would give me pleasure to render you any service

"What good does his life do you?" in my power, but it is impossible for me to comply with your request without violating the principles of justice and incurring the charge of partiality."

He wondered if she would sob. He hated to think of her tears, and again he muttered low at Peale's tactlessness. The artist stood fidgeting in the background.

But she did not sob. She only turned on him with dry, flashing eyes.

"Sir, you have spoken as I thought you would. Captain Jermyn was but doing the duty assigned him. If he and his half dozen men were in citizens' clothes, it was because he had that order from his general. As for the plans of Fort Clinton, these were given him by another, whose name he will not utter."

"If he would!"

"But he won't."

"No; I wouldn't if I were in his place."

"And yet," she went on, gathering anger, "your excellency will not turn a finger to save him, when you could."

Her voice sank to helplessness, and she caught herself in a sob. "What good does his life do you?"

(To be continued.)

## Sacrificed to Blood Poison.

Those who have never had Blood Poison cannot know what a desperate condition it can produce. This terrible disease which the doctors are totally unable to cure, is communicated from one generation to another, inflicting its taint upon countless innocent ones.

Some years ago I was inoculated with poison by a nurse who infected my babe with blood taint. The little one was unequal to the struggle, and his life was yielded up to the fearful poison. For six long years I suffered untold misery. I was covered with sores and ulcers from head to foot, and no language can express my feelings of woe during those long years. I had the best medical treatment. Several physicians succeeded in sily treating me, but all to no purpose. The mercury and iodine seemed to add fuel to the awful flame which was devouring me. I was advised by friends who had seen wonderful cures made by it, to try S. S. S. We got two bottles, and I felt hope again revive in my breast—hope for health and happiness again. I improved from the start, and a complete and perfect cure was the result. S. S. S. is the only blood remedy with reaches desperate cases.

Of the many blood remedies, S. S. S. is the only one which can reach deep-seated, violent cases. It never fails to cure perfectly and permanently the most desperate cases which are beyond the reach of other remedies.

Secretary Schell Reports Good Growth of Epworth League.

## CHANGES ARE RECOMMENDED.

A Number of Improvements Suggested in the Annual Report—Good Work Among Colored People—Progress Toward Union.

Indianapolis, Ind., July 25.—The board of control of the Epworth league on Monday considered the business affairs of the league. The report of Edwin A. Schell of Chicago, general secretary, said there are now 26,450 chapters in the league, with a total membership of 1,750,000. He recommended the formation of an intermediate league; such a change in the constitution as will include the brotherhood idea; some pronouncement with regard to junior league contributions by the woman's missionary societies; that a cabinet officer be placed at the head of the junior league; the establishment of a department devoted to missions; the creation of a system by which mercy and help collections may be taken, and arrangements to increase the circulation of the league reading course.

The Rev. Irvine G. Penn, colored secretary of the league, spoke for the colored people. He said about 1,000 colored chapters, with a membership of 30,000, are now doing good work. The league, he pointed out, is doing practical work among the colored people.

Franz L. Nagler, German assistant secretary, noted that in the German branch of the Methodist church there are 610 chapters, with 18,500 members. Bishop Nide, president of the board, laid before the meeting all the papers relating to a controversy with reference to the right of Secretary Schell to receive the profits from certain copyrights on league literature. The controversy was referred to the board by the Methodist Book Concern. The secretary has said to his friends that he is anxious that there shall be a full investigation. It is announced that the board will go to the bottom of the controversy, and, if possible, announce a decision before it leaves the city.

During the day progress was made with the proposed steps toward a closer union with the Christian Endeavor and the Baptist Young People's societies. The prospect is that the board will agree upon a plan of union to be submitted to the governing board of the two other societies.

The Epworthians have left the city with a rush, and only the members of the board are left behind.

## Say Miners Must Arbitrate.

Peoria, Ill., July 25.—Coal operators of the northern and central districts of Illinois, at a secret meeting in Chicago on Friday, decided to carry out the agreement made by them last January regarding the arbitration of the Illinois machine mine work, and if they do not come to time, other means will be adopted. The operators are determined that if some action is not taken at once the question will be submitted to the state board of arbitration. The difficulty may result in a strike in the near future.

## Damage by Storm in Indiana.

Wabash, Ind., July 25.—A fierce windstorm passed over the city early Monday morning. It struck the town of Somerset, twelve miles south of here, doing considerable damage. The west end of the old brick woolen mill was blown down, the mill was unroofed and the east end of the structure was knocked down, completely demolishing the residence of Miss Sarah Zook. Hundreds of shade and fruit trees were uprooted.

## Manchester Reported Quiet.

London, Ky., July 25.—State Inspector Lester, who was sent to Manchester by Gov. Bradley to investigate the feud situation, has made up his mind, according to the latest word from there, that the trouble is over for the present and that no special court or special session of the legislature is needed.

## FRENCH TREATY RATIFIED.

Important Compact Concluded Under the Dingley Law.

Washington, July 25.—The long-pending reciprocity treaty negotiations between the United States and France were brought to a successful close at the state department Monday, when Ambassador Cambon, in behalf of France, and Commissioner Kasson, in behalf of the United States, affixed their signatures to the treaty. It is by far the most important compact concluded under the reciprocity provisions of the Dingley law, and the only one affecting United States trade with a large commercial nation. The negotiations were marked by rather sharp and long-continued discussions, which continued up to the time the signatures were placed on the document. In the end a spirit of compromise prevailed and each side yielded something. As a whole both sides express satisfaction for the general results, for while the compromise necessitated some minor sacrifices the general effect of the treaty will encourage commerce between the two countries.

The concessions granted by France embrace most of the articles in what is known as the French minimum tariff. This comprises 644 heads, the rates being on an average about 20 per cent below those in the general tariff with France.

San Francisco, Cal., July 25.—The cruiser Boston is expected here from Manila at any hour. She is out now forty-five days, an unusually long voyage, but for the fact that she put into Nagasaki. She has on board a number of discharged sailors who fought with Dewey in the battle of Manila bay.

Independent mobs are still seeking five more victims.

## WORK OF PEACE CONVENTION

Summary of the Definite Results of the Meeting.

## DECLARATIONS DRAWN UP.

A Long Step Forward Has Been Taken in the Movement for the Pacific Settlement of International Disputes—American Delegates Active.

The Hague, July 25.—The final act embodying the results of the international peace conference says:

"The conference has drawn up for the approval of the respective governments the series of conventions and declarations appended:

"Convention for the pacific settlement of international disputes.

"Convention concerning the laws and customs of war on land.

"Convention for the adoption of laws against the use of asphyxiating or deleterious gases from balloon projectiles, and for the prohibition of the use of bullets that easily expand in the human body."

The final act contains five expressions of opinion, as follows:

"The conference considers that limitations of the military charges which at present oppress the world are greatly to be desired for the increase of the material and moral welfare of mankind.

"The conference expresses the opinion that the question of the rights and duties of neutrals should be inscribed on the program of a conference to be held at an early date.

"The conference expresses the opinion that questions relative to the type and caliber of rifles and naval artillery as examined by it should be the subject of study by the different governments with a view to arriving at a uniform solution by a future conference.

"The conference expresses the wish that an early convention be called to revise the Geneva convention.

"The conference has resolved that questions relating to the inviolability of private property on land and the bombardment of towns or villages in naval war be reserved for future conferences."

The American delegates asked that the word "duty" in article 27 be fully defined, so that the word may in no case imply any obligations on the part of the United States to interfere in European affairs, and vice versa.

Efforts are now being made to find a suitable word to substitute for "duty" without weakening the purport of the article.

## Strikers Arm with Rifles.

Evansville, Ind., July 25.—Twenty deputy sheriffs and policemen were stationed at the John Ingle coal mine Monday afternoon to protect the colored non-union miners when they came from work. About 500 striking miners, their wives and children were present, but no demonstration was attempted. Capt. John Ingle said he would pay no attention to the threats of the strikers. It is reported that the strikers have secured 500 Winchester rifles and will make an attack on the negroes.

## Raise Price for Mining Coal.

Springfield, Ill., July 25.—The state board of arbitration announced its decision fixing the price for mining coal in Williamson county at 33 cents per ton run of mine for hard mining and at 26 cents for machine mining. The decision is binding upon both operators and miners for six months, at the end of which time the arrangement may be terminated by either of the parties by giving sixty days' notice.

His veracity is unquestioned. You are reading local evidence. Investigating home testimony. Janesville news for Janesville people.

Suspicion can't lurk around it. Honesty is its prominent characteristic.

Home endorsement its salient point. Mr. Thos. Pratt of 281 South Main St. says: "I doctored off and on for forty years, attempting to rid myself of backache, which came on by spells, very painful when at their height and even when somewhat allayed, the dull aching grinding was sure to manifest itself. I have been so lame and sore that there were days I was confined to my room almost helpless, certainly unable to get up or down. Like a great many other people in Janesville I procured Doan's Kidney Pills at the Janesville Co's. drug store, led to do so by the peculiar advertisement which riveted my attention. After taking a thorough course of the remedy I was able to go to the quarry and sling an eighteen pound hammer without showing any signs of a recurrence. If I am subjected to future attacks I know what remedy to employ."

## AUTOMOBILE MAIL WAGONS

Some Interesting Experiments to Be Made by Postal Authorities.

BY C. T. BAXTER.

The United States postal department is always up to date. It is now considering the adoption of automobiles for mail collecting in urban districts. Considering that motor vehicles are but just beginning to be used for commercial purposes, this is a stroke of enterprise on the part of the postal authorities.

The first experiments were made by Postmaster Dorr of Buffalo, and he has demonstrated that automobiles would be a valuable addition to the postal service of large cities. His tests show a saving of both time and money, two vital considerations when it comes to transporting the mails.

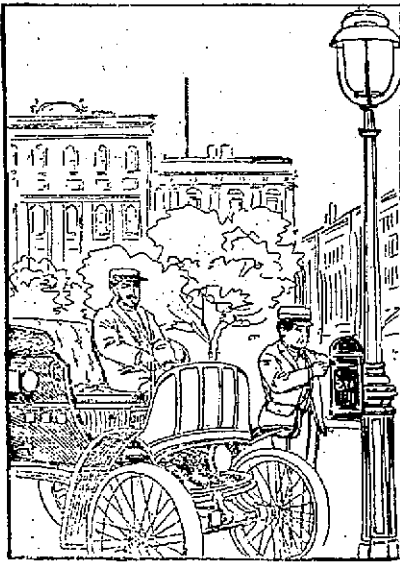

Through the kindness of Dr. Truman J. Martin, who owns an automobile trap, Postmaster Dorr was able to make some practical experiments in the collection of mails, and his report on the result has just been received at the postoffice department. He says that Dr. Martin offered the use of his automobile for trial in the collection of mails from street letter boxes to demonstrate its advantages over the horse collection wagon.

The first trial was made on Saturday evening, July 1, when Dr. Martin managed the automobile, carrying with him Superintendent of Carriers Lieb, who collected the mails from 40 boxes on a route of 13 miles in 1 hour and 30 minutes. To cover the same route with a horse wagon required more than three hours.

Trial was made on another route the next morning, when the mail was collected from 63 boxes in 1 hour and 50 minutes. The time required for a horse wagon to cover this route is 3 hours and 5 minutes.

Still another test was made on July 4 on another route, 15 miles in length, with 54 boxes, and the collections were all made in 50 minutes.

Postmaster Dorr informs the department that Dr. Martin has ordered a

COLLECTING MAILS BY AUTOMOBILE.

specially designed wagon to be fitted with a box for receiving the mails immediately in front of the driver, and that when it has been received it will be put into service and a report will be made of its performance. This report will be awaited with much interest and it may lead to experiments in other cities.

Buffalo experiments show an average saving of time of nearly one-half over the wagon service, and if this can be maintained it will enable the department to give more frequent collections and to extend the collection and free delivery service farther into the suburbs of cities without any increase in cost.

It is expected that further experiments will be made in New York, Boston, Philadelphia, Washington, Chicago and other large cities. Acting Postmaster Henderson of Boston wants to try automobiles over some of his routes at once, as he says he is confident their use would expedite the service very much.

It would probably prove specially effective on the so called "horse routes" for midnight collections. There are at present 39 of these routes in the Boston postal district, and for each one the carrier is allowed an extra amount over his salary for keeping a horse and carriage to use in his work.

This horse and carriage is his own property, for the postoffice department has made it a point never to own any horses, but it is a necessary part of his equipment, and without it he could not make all the collections required of him in the time allowed. The extra allowance on 36 of the routes is \$300; on the other three it is \$400.

But this arrangement has its limitations. The collections have to be made over the whole of an extensive district in the time between 11 p. m. and 3.30 a. m., for the mail collected has to be in the Boston office in time to catch the early mail for New York, which closes at 4 a. m. Accordingly the routes to be covered by one horse, which is all a single carrier is allowed, have to be kept down within the animal's strength.

The many miles of smooth asphalt pavement in Washington and Philadelphia would make both those cities ideal places for the use of the automobile mail wagons. Especially on the night collections, when streets are almost deserted, could these motor vehicles be used to great advantage, for they could be run at great speed.
